our SCHOOL STREET

TRAFFORD COUNCIL

We have introduced a new barrier at the end of the School Street. The barrier may be left unsupervised on some afternoon sessions, allowing us to operate the School Street with fewer volunteers.

School Street Update

The barrier is placed on the left hand side for drivers entering the road. Exempt vehicles can drive around the right hand side of the barrier to access the road.

The legal traffic order makes the School Street a temporary walking, wheeling and cycling zone (8.30 - 9.15am and 2.30 - 3.15pm). **This applies every day, whether volunteers are present or not.** Residents with properties inside the closure zone, holders of a valid blue badge and emergency services are still able to access the road. **All other parents / carers cannot drive down the road when the School Street is in operation.** We ask that exempt vehicles are driven at walking pace if they are accessing the road during the times the School Street is in operation, in order to ensure the safety of the school community.

The School Street will continue to be monitored by volunteers, school staff and council staff to prevent abuse of the scheme.

Kids love to travel to school on foot or by bike and scooter whatever the weather! Please leave the car at home when you can.

If you need to travel to school by car, please park responsibly and do not block junctions or dropped kerbs.
Please switch your engine off when waiting in your vehicle.

We still need more people to volunteer now and then!
Volunteering is flexible and no commitment is required - all help is welcome. Without more volunteers signing up, the School Street will not be able to operate full-time.

To get involved, please click here to join the School Street Whatsapp group.
