Well, we are officially in Autumn but the weather is amazing – fingers crossed it lasts!!

This weeks Word Of The Week is:

persevere

To persevere, is to carry on with an action or task, even when it is difficult; to keep going!

Library

We are pleased to announce that our steadfast team of library volunteers are back in school this week. This term they are going to be working with Key Stage One children (Year 1 and Year 2), getting them used to using and enjoying the library again and then, when they are more settled in the school environment, library visits will start in the Reception classes.

School Website

As a school, we have been reviewing how photography is published on our website and have been making changes where needed, to ensure that safeguarding and privacy are being handled carefully. Photography still plays an important role in showcasing school life, achievements and culture and the aim is not to remove photography, but to be more considered about how images are captured and published.
We are in the process of developing a new website that will be password protected but it is expected to be November, before it will be launched. However, we are taking immediate action, reviewing, deleting and updating what is already in place on our current website. Please continue to check your child's 'class page' to find out what is happening and we will keep you updated regarding the launch of the new website!

The school office

Please note that there is not access to the school office via the playground. If you need to speak to the office or are arriving after the bell: walk along the pathway that runs alongside the car park and the playground (by the black railings).

Thank you for your on going support and here's to another great week in school
